Michael,

I write this letter to thank you and your staff for the wonderful job and professional approach delivered by all. From the first call placing the service request to the close of the service call and the follow-up post affirmation call, the feedback and the obvious caring approach I experienced was second to none.

Being in the technology business for the last 28 years developing what is now my 4th company from inception, I not only appreciate your offering and the way you differentiate yourselves but truly believe, your team can't miss being a tremendous success because nobody out there delivers what you have delivered to both me and my staff when service was needed.

Please use me as a reference whenever needed. Besides paying your invoice, it the only other way I can say thanks.

Keep up the good job!!!

Regards,

ALAN GROPACK
